

Rays of Hope for Haiti

Rays of Hope for Haiti Wish List

The following is a list of supplies compiled by our partner programs in Haiti. They are various relief and long-term development organizations working in various communities, or orphanages in Haiti.

As you can see, Haiti is a country with very few resources, and even less money to provide resources to their people. Our partners look to us for assistance in providing some of these basic needs to ensure proper nutrition and development of the children.

If you have a suggested donation items and do not see it on the list, give us a call 616-633-4258! Most all items (in good reusable condition) are gladly accepted.

Rays of Hope for Haiti also appreciates and depends upon financial donations to help offset the costs of transporting these items to Haiti.
